

P500 Manual Pretreatment System

The P500—the P300's little brother—is manufactured with the same quality components and features of the P300; it's just a smaller system! The PEM system produces the same high quality results as high-end multi stage systems allowing you to save even more money. We guarantee you will lower your production expenses and improve product quality through better paint adhesion and corrosion protection. PEM also offers solutions to elevate your system and store your hoses to prevent damage to your equipment.

Standard Features

Dimensions:
45" L x 26" W x 48" H
480 lbs
