

SprayMate Cabinet Washer

The SprayMate has been designed to work alongside of the P300, P400 and P500. The SprayMate is manufactured entirely of stainless steel, made to withstand all types of chemicals. It has been specially designed for OEMs and job shops to clean small batches of parts thoroughly and efficiently to save cost on your chemical usage. The SprayMate will connect to your existing PEM system easily, and it can be quickly engaged with the turn of a switch. Chemicals can be applied at heated or ambient temperatures allowing you the same repeatability with cleaner parts.
